Newsletter #21 – September 2020

News

■ Publications

A superb international study was published in Science Magazine on how interplay between plant receptors and oligosaccharide can discriminate between infection and symbiosis. On a related subject, another one was published in Nature Communications on the role of lipochitooligosaccharides in fungi development. [More publications to discover here.](#)

■ FunCell awarded

FunCell, the pre-incubation company launched from Cermav that provides biosourced additives for paper, boards and nonwoven industry received the i-Lab 2020 prize. Congratulations! [More information](#)

■ Glycoflu on TV

Emeline Millot Richard, winner of the i-PhD 2019 award and co-header of the maturation project Glycoflu that develops a treatment against the flu was interviewed in B-SMART [More information](#)
